PROJECTS

AgriConnect (PHP, Vue.js, CodeIgniter 3, MySQL)

- Developed a web-based system to register and manage farmers, retailers, and agents with efficient data handling.
- Implemented billing, payment tracking, and due management functionalities.

Doctor Appointment Management System (PHP, MySQL, HTML/CSS)

- Designed a user-friendly platform for booking, managing, and scheduling doctor appointments.
- Implemented role-based access for doctors, patients, and admins with responsive front-end UI.

Internship

Full Stack Web Development Intern, Unified Mentor (Remote)

Nov 2024 - Dec 2024

- Successfully completed 1-month internship focused on building full stack web applications.
- Worked on CRUD operations, responsive UI, and RESTful integration with backend using Java and MySQL.

Courses & Certifications

• Certified in JavaScript by Scaler Academy

(Oct 27, 2023)

• Java Certification Course Completed from Udemy

(Oct 10, 2023)

Hobbies

- Exploring backend technologies through personal mini-projects.
- Collaborating with peers on GitHub for open-source projects.
